Professional summary

I am a labour economist specialising in gender issues in Indonesia and Australia. Prior to my PhD, I am a researcher at the SMERU Research Institute where I was involved in various projects related to public policy issues and provided research support to the government. Apart from research, I am passionate about teaching as reflected in my tutoring experience in which I maintain positive feedback from students' evaluations.

Research Interests

Labour economics, gender economics, development economics and poverty issues.

Education

Ph.D. in Economics, Research School of Economics, Australian National University 2023 (expected)

Thesis: Essays on lifetime labour market outcomes and gender. Chair supervisor: Prof. Xin Meng

Master of Economics (M.Ec.), Research School of Economics, Australian National University 2015

Research project: Quality-quantity trade-off: an evidence from Indonesia.

Bachelor of Economics (B.Ec.), Faculty of Economics and Business, Universitas Indonesia 2011

Thesis: Child labor and rice policy in Java and Bali in 2002-2008.

Employments

Short-term Consultant, The World Bank, Washington, D.C. Jul. 2020–Jun. 2023

Tutor, Research School of Economics, Australian National University Jun 2017–July 2021

Consultant, Asian Development Bank, Jakarta Jul. 2020–Dec. 2020

Researcher, The SMERU Research Institute Sep. 2012–Feb. 2017

Tutor, Universitas Indonesia Aug. 2008–Jun. 2011

Teaching experience

Australian National University Postgraduate level (PG), Undergraduate level (UG)

Case Studies in Applied Economic Analysis and Econometrics (PG) S2 2019, S2 2020

- Taught quantitative analysis using STATA.

- Helped students to develop their own research paper which includes formulating research questions, identifying methodology and write up analysis.
- Provided guidance on how to obtain access dataset from either public domain or private institutions as well as use of data.
- Set up a hybrid teaching interface, both face-to-face and remote (via Zoom), to accommodate offshore students, especially during the pandemic.
- Awarded CBE Teaching Commendation for Outstanding Tutoring for the course in 2020.
- Student Experience of Learning and Teaching (SELT) Overall 4.6/5 (2019).
- Strengths of teaching approach as highlighted by student evaluations: ability to address questions and course issues with clarity; good communication skills, patience, a good understanding of the subjects; ability to generate interest in the subject.

Econometric Methods and Modelling (PG)

S1 2019, S1 2020

- Delivered both lecture-based and computer lab teaching to more than 90 students as a solo tutor
- Coordinated with ANU timetabling team, Teaching and Learning Common Support Services (TLCSS) and ANU IT Service desk to set up STATA workshop session.
- Helped course convener to design assignments which includes identifying potential sets of tasks and marking schedules.
- Generated marking matrix to grade exam paper effectively and efficiently to meet tight marking schedule
- SELT Overall 3.7/5 (S1 2019).
- Strengths on teaching approach as highlighted by student evaluations: ability to explain problems in a simple, clear, and logical way; patient; and encourage students to be active during the tutorial.

Applied Microeconomics (UG/ PG)

S1 2018

- Prepared tutorial materials and delivery to accommodate both undergraduate and postgraduate students.
- Taught quantitative analysis using STATA.
- Student evaluations: 4.3/5 (PG); 5/5 (UG).
- Strengths on teaching approach as highlighted by student evaluations: helpful with any questions and worked hard on showing how to use STATA for different purposes.

Microeconomics 2 (UG)

S2 2017

- Introduced economics principles to the undergraduate student with various study background that includes economics, finance, politics, law and philosophy.
- Communicated effectively and efficiently among tutors to maintain teaching accuracy and consistency.
- SELT Overall 3.8/5.

Universitas Indonesia

Statistics 1 (UG)

S1 2012

Introduction to Mathematical for Business and Economics (UG)

S2 2011

Introduction to Statistics for Business (UG)

S2 2011

Introduction to Economics 2 (UG)

S1 2011
